Rubenstein Library HoverCam Quick Start guide – PC users

Installing the Hovercam software for the first time (later usage won't require install)

**If the below instructions fail, go to Hovercam.com/support/downloads.

**Installing software on a private computer may require the user to have admin privileges

- **Video tutorial at https://thehovercam.wistia.com/medias/oohxoan44k
- 1. Remove rubberized cover from *Install* port in center of Hovercam base and set aside.

2. Plug the orange cable into *Install* port (you may need to first remove cable from SB port to right of *Install* port).

3. Plug USB end of orange cable into a USB port on the computer.

4. Open This PC; navigate to view of computer's drives.

5. Find the drive titled UDISK D and open it.

6. Double-click on **Setup** to open installation dialog.
