Purpose:

"COGS stands not only for the real name, College Organization for General Service, but is also significant of the college woman's place in the complicated machine of an "all-cut-for-victory" campaign. The purpose of this organization is to be of service, to offer participation and cooperation in all war work and war organizations, and to stand on call for all activity in which college women can be of service. The aim of the organization is to encourage each student to feel it her personal responsibility to do something in the war effort. The purpose of the COG Committee, which consists of representatives from each dormitory, the town girl students, and the graduate students, is to serve as a medium through which the war organizations and students are brought together, and to act as a recruiting group on the campus.

Achievements:

Progress charts showing the number of individual hours of war work and also the total number of house hours have been placed in each dormitory and in the Town Girls' room.

There has been participation in the following war activities:

Finances:

Contribution of \$10.00 was received from the Woman's Student Government Association. Total Expenditures were \$3.00. The remainder, \$7.00 was forwarded to the new COG Committee.

Recommendations:

There should be more stimulating publicity and posters, and also constructive criticism from the publications. Each girl should be encouraged to realize that her participation in any war work is vitally needed. Emphasis should be placed on surgical dressings, and maybe a goal of an hour a week folding bandages by every student could be attained. It is sincerely hoped that this organization will spread to other college campuses and that it will lead the way to a united college-front—a march of the COGS across the country!
